WE ARE REPUBLICAN BECAUSE...

WE BELIEVE...

The proper function of government is to do for the people those things that have to be done but cannot be done, or cannot be done as well, by individuals, and that the most effective government is government closest to the people.

Good government is based upon the individual and that each person's ability, dignity, freedom and responsibility must be honored and recognized.

That free enterprise and the encouragement of individual initiative and incentive have given this nation an economic system second to none.

Sound money management should be our goal. In equal rights, equal justice and equal opportunity for all, regardless of race, creed, age, sex or national origin.

We must retain those principles of the past worth retaining, most importantly, family values and the sanctity of human life. Yet we are always receptive to new ideas with an outlook broad enough to accommodate thoughtful change and varying points of view.

That Americans value and should preserve their feeling of national strength and pride, and at the same time share with people everywhere a desire for peace and freedom and the extension of human rights throughout the world.

The Republican Party is the best vehicle for translating these ideals into positive and successful principles of government.
